

FiberPRO[®] ENCAPSULATION CLEANING PROGRAM

*Versatility and innovation for all types
of commercial carpeting.*

BETCO[®]

Cleaning Innovations That Matter.

Low Moisture

Fast Drying

FiberPRO® Encapsulation Cleaning Solutions for Commercial Carpet Care

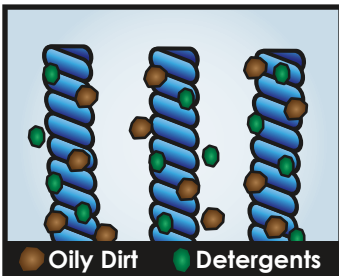

FiberCAP™ MP contains the most advanced technology in encapsulation chemistry with polyhedral polymers. The unique crystallization geometry of these polymers enhance soil entrapment and provides better release from the carpet fiber. FiberCap MP leaves carpets cleaner longer!

- Minimizes re-soiling.
- Low moisture/fast drying.
- Multi-Purpose.

The FiberCAP™ 20 uses high speed twin brushes to sweep debris, lift the carpet pile, and effectively agitate encapsulation cleaner into the carpet fibers. This is a critical step for the carpet encapsulation process.

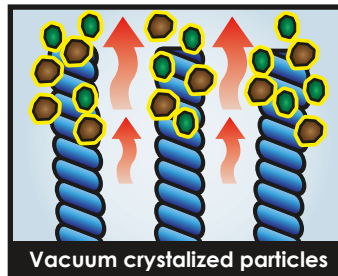

THE SCIENCE OF ENCAPSULATION CLEANING WITH FIBERCAP™ MP

1. Oily dirt and detergent residue stick to the carpet fibers trapping soil.

2. The unique crystallization geometry of Polyhedral Polymer Technology™ completely surrounds the oily dirt and detergent residue.

3. Once dry, these crystallized particles release from the carpet fiber and can be easily removed by vacuuming.

4. FiberCAP™ MP leaves carpets cleaner longer.

Versatile

FiberPRO® offers versatility with a system for all phases of the Life Cycle of Carpet Care

INTERIM / LOW MOISTURE CLEANING

Removes soil before it becomes deeply embedded in the carpeting.

- Low moisture and fast drying.
- Extend the time between extraction cleanings.
- Use with the FiberCAP™ 20 to lift carpet pile and effectively agitate cleaner into the carpet.

ROUTINE / MAT MANAGEMENT

Enhances dirt removal from entrance matting to extend the life of your floor.

- Up to 80% of the dirt found in any facility is brought in from outside.
- Clean matting systems are more efficient at collecting dirt and helps keep your floors safe.
- Easy dirt removal with the HF14 Dual Motor Vacuum.

ROUTINE / SPOTTING

For the quick removal of surface soils, spots and stains.

- FiberCAP™ MP makes routine maintenance easy.
- Surrounds the soil in the spot and lifts it from the fiber.
- Use with the FiberPRO® Carpet Spotter machine to quickly and effectively remove spots and small soils from carpets, rugs and entrance mats.

RESTORATIVE / EXTRACTION CLEANING

Powerful formula unlocks and traps soil and dirt from fiber for easy removal.

- Polyhedral polymer technology leaves no detergent residue behind.
- Combine with the FiberPRO® 20 extraction machine for maximum deep cleaning.
