Creating Exceptional Workplaces*

At Kimberly-Clark Professional*, we are dedicated to creating spaces that are healthier, safer and more productive - Exceptional Workplaces*.

While people all over the world are hard at work delivering great products and services that make the world move forward, we are busy transforming those environments. In fact, we are on a mission to create a new standard for the workplace. This means we not only sell great products, but also full service solutions that truly change your working environment.

We offer two of the most recognized and respected brands in the world: Kleenex® Brand and Scott® Brand products. Both brands eliminate the guesswork for you and your customers.

Our commitment also includes a customized washroom experience – like the Mod* Dispensing Systems – and towel and tissue products made with plant fibers.

Ready to make your workplace truly exceptional? We are ready to help, because we are committed to creating environments where people can thrive, progress and make a difference.

We create a world of wellness through solutions that are right for you and your environment.

Be Your Best. Be Healthy.

No one wants to get sick. But the fact is, 98% of workers are affected by minor illness each year. Germ hotspots are unavoidable, but they are controllable.

It's so easy to pick up germs, especially when you're away from home. You work closely with others. You go places with large crowds. Even a simple handshake can introduce you to a cold or flu.

That's why we have developed innovative programs to reduce the spread of germs in the workplace, in schools, and in high traffic areas – all places where germs can easily be passed from one person to another. These programs focus on commonly touched surfaces, or germ “hot spots.”

We strive to make every touch a healthy one, so that you can be empowered to live, learn, work, and play at your very best.

by KIMBERLY-CLARK PROFESSIONAL

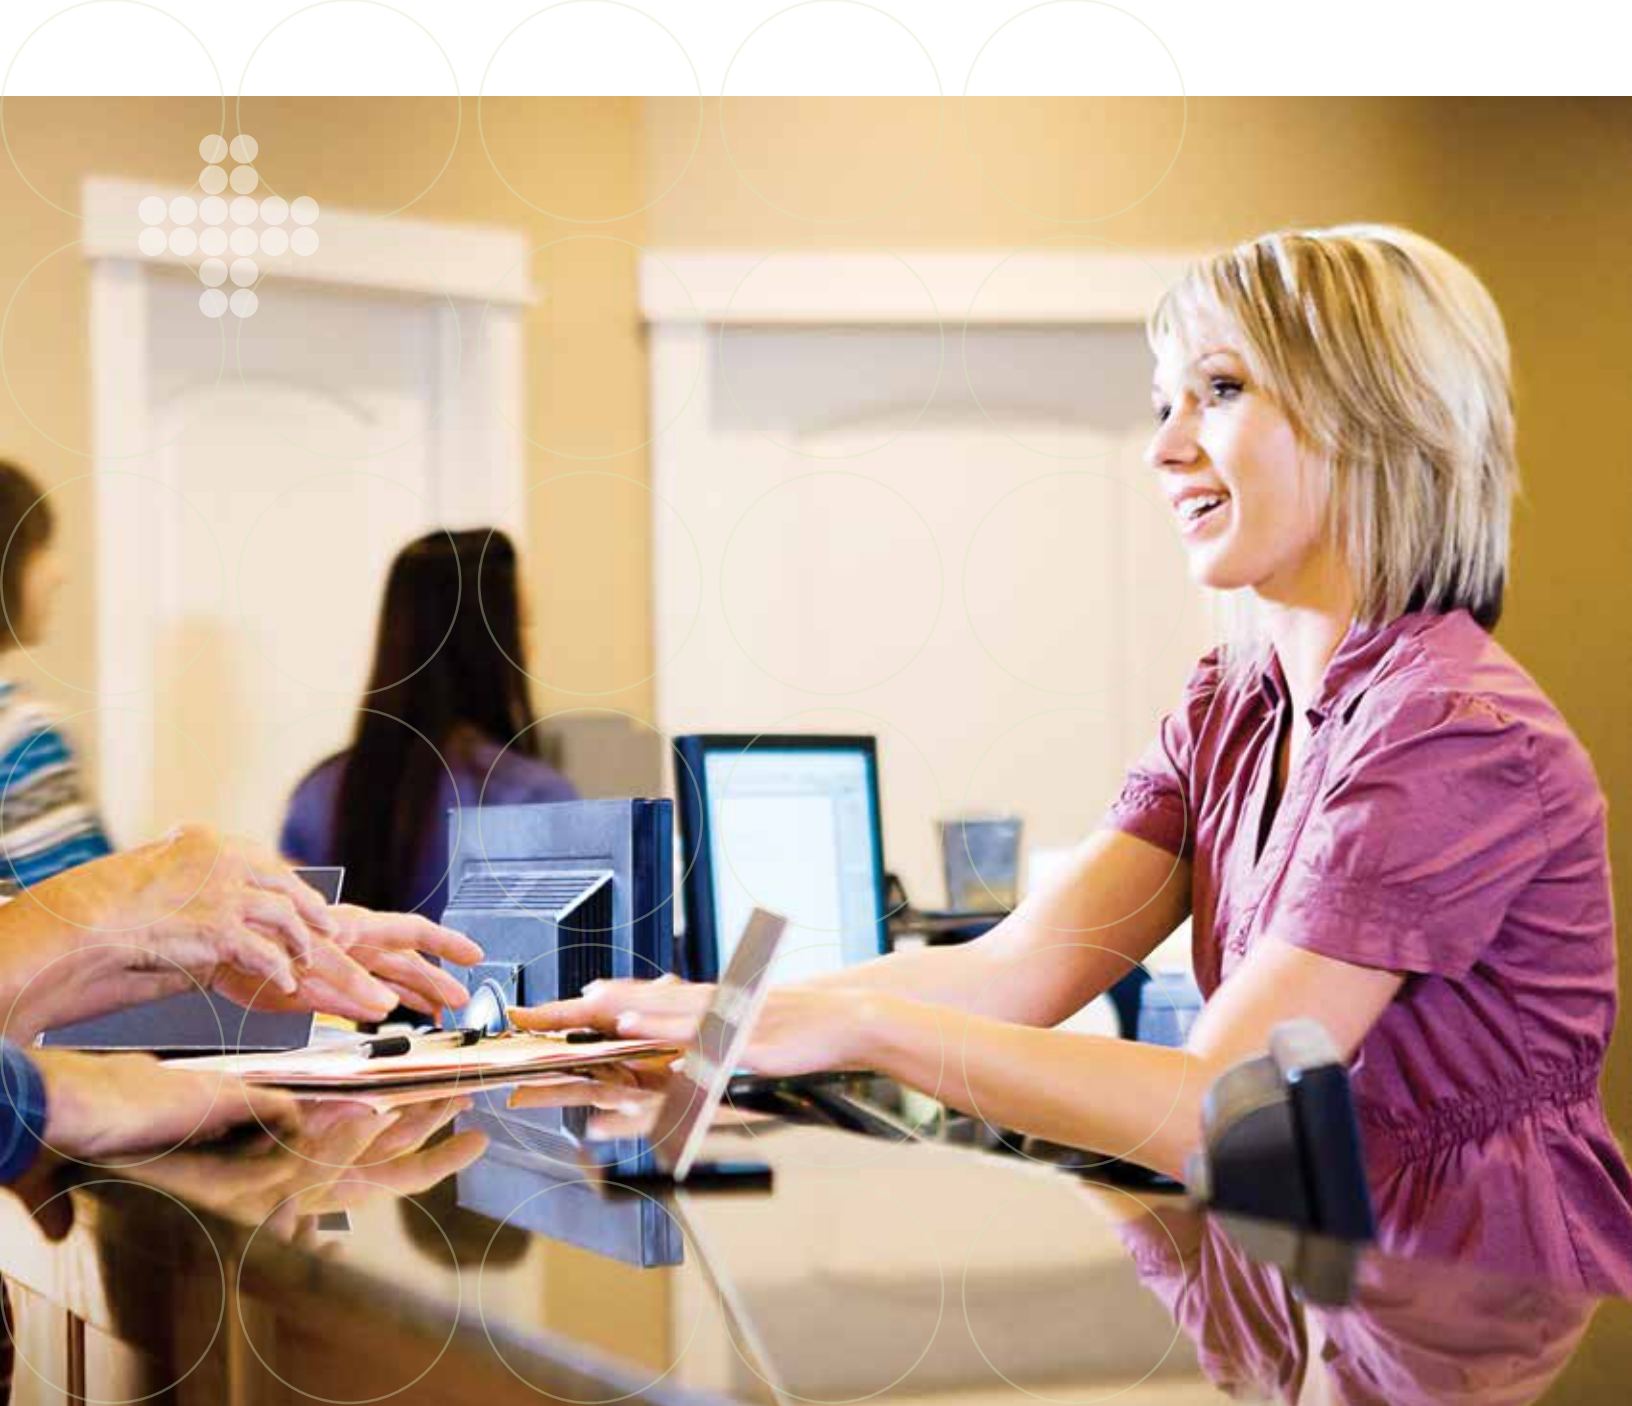

Healthy Solutions. Sustainably Delivered.

Our commitment to making your business more sustainable starts with the products we make. We reduce the environmental impact of our products at all stages of the lifecycle – from raw materials through ultimate disposal. This helps use less of the world's natural resources and leaves more for the future – for our children, for the planet, for our businesses.

To assure high environmental standards, our products offer:

- Third party certifications such as Forest Stewardship Council® (FSC®), ECOLOGO® and Green Seal™

- High levels of recycled fiber meets minimum EPA requirements for post-consumer waste content
- Reduced resource use
- Packaging designed to reduce waste

We are the first major towel and tissue manufacturer in North America to introduce products containing natural, non-tree fibers. Incorporating these fibers into health and hygiene products is one more step in our efforts to reduce reliance on resources today, while respecting the needs of future generations.

Promoting Happier & Healthier Environments

We have all kinds of ways to address germ "hot spots" – surfaces like door handles, desks and elevator buttons that many people touch each day. From innovative product caddies to our Scott® 24 Hour^{††} Sanitizing Spray, we bring you solutions to break the chain of germ transmission and help you create your own healthy environment.

For common areas, these "hot spot" solutions are great ways to promote a healthier, happier environment.

Paper Towel Solutions

A Customized Washroom Experience

With a clean, sleek design that fits any washroom environment, the innovative Mod* System has dispensing modules that simply plug and play. The result: a towel dispenser that's totally customized to meet the needs of each washroom now and into the future.

From manual or electronic hard roll towel dispensing to image-conscious folded towels, our systems offer a full range of hygienic options that deliver trusted Kleenex® and Scott® Brand towels.

Better For The Planet

We offer towels that are FSC® and ECOLOGO® certified and meet EPA standards for minimum post consumer waste content.

Our towels are designed with Absorbency Pockets*, so fewer towels are used. That means more towels left in the dispenser, more time between refills, less paper waste and, in many cases, less cost for your business.

Bathroom Tissue Solutions

Better Hygiene, Less Waste

Create a healthier restroom environment with Kleenex® and Scott® Brand bathroom tissue products. Designed to reduce waste, they also directly address good hygiene with enclosed, touchless dispensing options.

One great example is our Coreless Jumbo Roll Tissue (JRT) that provides 15% more tissue per roll than standard cored JRT systems. The system was introduced over 25 years ago, and it continues to be a customer favorite.

Both Kleenex® and Scott® Brand bathroom tissue are available in standard rolls or hygienic interfolded sheets that deliver one at a time dispensing to reduce waste and costs.

For a top quality image with hygienic performance, trust Kleenex® Cottonelle® Standard Roll Bathroom Tissue to deliver the essential and uplifting touch that makes life better.

Meets EPA standards for minimum post-consumer waste content: towels 40%, bathroom tissue 20%, facial tissue 10%
